Success Stories in Mathematics

The Success Stories in Mathematics initiative aims to collect photos and stories from a wide range of people involved in a wide range of mathematical careers, including careers in statistics and OR. The photos and stories collected will be curated and used to produce both online and print resources with the goal of promoting wide views of the types of careers open to mathematicians, the motivations for undertaking a career in mathematics, and the measures for success in mathematics careers.

Name:	
Current workplace or university:	
Email (for future contact if willing):	
Current role:	
My mathematical success story is... (This can be short or long, and could involve a wide variety of things — what you like about what you do, how you have got to where you are, what you aspire to, your life outside mathematics, what you do well--anything you are proud of!)
