

SOMERVILLE COLLEGE

FINANCIAL INFORMATION FOR NEW STUDENTS IN 2018/19

Before you start the academic year, it is important that you take all necessary steps in order to secure funding for your studies. Please note that Somerville College is unable to provide credit facilities. Detailed information about funding your studies is available on the university website (www.ox.ac.uk/feesandfunding).

FEE STATUS

The level of tuition fee you will be charged and the support available to you is determined by your fee status. This is based upon your nationality and where you usually live.

FINANCIAL DECLARATION

All new students should have received a financial declaration from the Academic Office earlier this year. This document aims to ensure that you are fully aware of the expected fees and living costs for your course at Oxford. You are also asked to provide information about how you intend to cover the fees in the first year of your course.

TUITION FEES

The tuition fee for Overseas students starting in 2018/19 will vary depending on the course. The exact amount will have been confirmed in your financial declaration.

COLLEGE FEES

Overseas students must also pay a college fee. This will be £7,570 in 2018/19.

LIVING COSTS

In 2018/19, the university estimates that students will require between £1,014 and £1,556 per month for living costs. This range is based on a single student with no dependants living in college accommodation. You should be aware that even if you qualify for loans, bursaries, grants or scholarships, you might need additional funding to cover your expenses.

SCHOLARSHIP PAYMENTS

If you have been awarded a scholarship, your first instalment should be paid directly into your nominated bank account within two weeks of being registered at the college. Scholarship holders should report to the Treasury after registration to arrange this. Provision should therefore be made for some spending money when you first arrive in Oxford to cover expenses until you receive this first instalment.
