

SOMERVILLE COLLEGE

FINANCIAL INFORMATION FOR NEW STUDENTS IN 2018/19

Before you start the academic year, it is important that you take all necessary steps in order to secure funding for your studies. Please note that Somerville College is unable to provide credit facilities. Detailed information about funding your studies is available on the university website (www.ox.ac.uk/feesandfunding).

FEE STATUS

The level of tuition fee you will be charged and the support available to you is determined by your fee status. This is based upon your nationality and where you usually live.

FINANCIAL DECLARATION

All new students should have received a financial declaration from the Academic Office. This document aims to ensure that you are fully aware of the expected fees and living costs for your course at Oxford. You are also asked to provide information about how you intend to cover the fees in the first year of your course.

TUITION FEES

The tuition fee for Home and EU students starting in 2018/19 will be £9,000. All Home and EU students can access a loan from the UK government for the full amount of their tuition fee. This will be paid directly to the university once you have been registered. If you do not wish to take out this loan, you will need to pay the full amount to the college at the start of the academic year. In subsequent years, partial support is available from the NHS for students from certain domiciles. The university website (www.ox.ac.uk/admissions/undergraduate/fees-and-funding/oxford-support/funding-for-medical-students) has more information about this.

LIVING COSTS

In 2018/19, the university estimates that students will require between £1,014 and £1,556 per month for living costs. This range is based on a single student with no dependants living in Oxford. Depending on your fee status, you might be entitled to a maintenance loan from the UK government. Income-assessed bursaries are also available from the university. You should be aware that even if you qualify for loans, bursaries, grants or scholarships, you might need additional funding to cover your expenses.

MAINTENANCE LOAN PAYMENTS

If you have been awarded a maintenance loan from the UK government, your first instalment should be paid directly into your nominated bank account within five days of being registered at the college. Provision should therefore be made for some spending money when you first arrive in Oxford to cover expenses until you receive this first instalment.
