

MATHEMATICAL, PHYSICAL AND LIFE SCIENCES DIVISION

Mathematical, Physical and Life Sciences Divisional Office

9 Parks Road, Oxford OX1 3PD

Dear student,

MPLS Online Bridging Programme

We are writing to you because you are soon due to start an undergraduate programme in Chemistry, Earth Sciences, Engineering, Materials, Physics or Physics & Philosophy here at the University of Oxford.

The Mathematical, Physical and Life Sciences (MPLS) Division runs an online Bridging Programme for new students in the Physical Sciences. The programme has four sections: mathematics, chemistry, physics and study skills. You should read the advice on the site for what is relevant for your subject of study.

The aim of the programme is to help you to consolidate/expand your knowledge in preparation for your degree course. You are strongly recommended to study the programme before your arrival in Oxford, as this should assist in your transition to university, and your first weeks and months here.

An email will be sent to you from the Bridging Programme Team giving you further information and login details. This email will be sent to the address that you used in your Oxford University application so please check this address. If this email address is no longer in use please email us at bridging@mpls.ox.ac.uk with your new one stating your full name, college and course of study.

If you have not received this by the beginning of September please contact bridging@mpls.ox.ac.uk

All best wishes,

The MPLS Bridging Programme Team
