

Women Making History

Women count. What they do with their lives on the grandest of international stages, or the smallest of domestic hearths; how they learn, work, love, raise their children, shape future generations; how they remember; how they think of the future—it all counts; it is half of history. Please join us as we reflect on the 100-year anniversary of Oxford granting academic degrees to women.

PROFESSOR LOUISE RICHARDSON
VICE-CHANCELLOR OF THE UNIVERSITY OF OXFORD
