

The Somerville Skills Hub has developed a partnership with SmartParc – an innovative food business – and its sister company TSL – an international construction group.

**Luca Webb (History, 2019)**

**Head of Communications,  
TSL & SmartParc**

“Having benefitted from the Skills Hub as a user, I am thrilled that it has now become a mechanism through which I can offer work opportunities to students of my alma mater and connect them with business leaders. I cannot praise the Somerville Skills Hub more highly as a beneficial model for students, alumni and employers.”

“Having met Jackie (Group CEO) and Luca at a careers event in Somerville, I very quickly saw the exciting career prospects TSL had to offer. Over the past seven months I've had the chance to engage directly with big clients like Amazon and Lidl as well as travel across Germany, Belgium and the Netherlands to support legal matters.”

**Tia Dabare (Law, 2019)**

**Commercial Executive, TSL**

**Matyas Knol (History, 2020)**

**Lead Analyst Central & Eastern  
Europe, SmartParc – Summer 2023.**

“At SmartParc, I got an opportunity to work with a world-leading company, to deploy, and further enhance, the research and analysis skills acquired through my degree in a real-world business environment. I particularly appreciate that I was entrusted with the responsibility to conduct independent research, and directly influence strategic decision-making”
