Dear [salutation],

As you can see, the Somerville College Report has changed a lot since 1879. Often, small changes to the Report have reflected larger changes within College. You can see the proud moment when ‘Hall’ became ‘College’, when Somervillians conceded to wartime paper rations, and when we proudly celebrated the College’s centenary.

Through it all, the College Report has manifested Somerville’s commitment to being a forward-looking academic community – and this year is no different. In 2024, for the first time, we will share the Somerville College Report primarily as a digital publication in a necessary move to be more sustainable.

You can view the College Report in its exciting new format via the QR code below. It will also be sent to you by email. **Please note:** you can continue to receive a physical copy of the Report by emailing “College Report” to [development.office@some.ox.ac.uk](mailto:development.office@some.ox.ac.uk) or calling 01865 280626.

We hope you like this new, greener version of the College Report,  
Somerville College Development Team
