

SOMERVILLE COLLEGE

FINANCIAL INFORMATION FOR NEW STUDENTS IN 2026/27

Before you start the academic year, it is important that you take all necessary steps in order to secure funding for your studies. Please note that Somerville College is unable to provide credit facilities. Detailed information about funding your studies is available on the University website (<https://www.ox.ac.uk/students/fees-funding>).

FEE STATUS

The course fee you will be charged and the support available to you is determined by your fee status. This is based upon your nationality and where you usually live.

FINANCIAL DECLARATION

All new students should have received a financial declaration from the Academic Office earlier this year. This document aims to ensure that you are fully aware of the expected fees and living costs for your course at Oxford. You are also asked to provide information about how you intend to cover the fees in the first year of your course.

COURSE FEES

The course fee for Home students starting in 2026/27 will be £9,790. All Home students studying for their first undergraduate degree can access a loan from the UK Government for the full amount of their course fee. This will be paid directly to the University once you have been registered. If you do not wish to take out this loan, you will need to pay the full amount to the College at the start of each academic year. If you find it difficult to make this payment the College Treasury will be happy to agree a payment plan with you to ensure that the fees are paid up by the end of Trinity Term 1st week in 2027. In subsequent years, partial support is available from the NHS for students from certain domiciles. The University website (www.ox.ac.uk/admissions/undergraduate/fees-and-funding/oxford-support/funding-for-medical-students) has more information about this.

LIVING COSTS

In 2026/27, the University estimates that students will require between £1,405 and £2,105 per month for living costs. This range is based on a single student with no dependants, living in College accommodation. Depending on your fee status and domicile, you might be entitled to a maintenance loan from the UK Government. Income-assessed bursaries are also available from the University. You should be aware that even if you qualify for loans, bursaries, grants or scholarships, you might need additional funding to cover your expenses.

MAINTENANCE LOAN PAYMENTS

If you have been awarded a maintenance loan from the UK Government, your first instalment should be paid directly into your nominated bank account within five days of being registered at the College. Provision should therefore be made for some spending money when you first arrive in Oxford to cover expenses until you receive this first instalment.
